## Sustainable Luxury

Situated on more than 400 acres of preserved farmland 50 miles west of Chicago, **Serosun Farms** proposes a new definition of luxury living dedicated to sustainability. Collaborating with John DeWald and Associates, Serosun Farms offers a selection of 1-acre lots for custom home projects on a picturesque estate, which provides luxury amenities in a rural green environment. Community members have access to a farmer's market filled with organic foods sourced directly from the working farm, a state-of-the-art equestrian facility, a community center with fitness room and pool, and recreational activities from stocked fishing ponds to eight miles of trails. Go west! [serosunfarms.com](http://serosunfarms.com)

DRESS UP

### Closest Case

Finally, a closet worthy of Carrie Bradshaw. While fashion has long been known as an art form, our very best pieces often become lost in a cramped, ordinary closet. Not for this Winnetka couple. They worked with the **Orren Pickell Building Group** to repurpose a former bathroom, bedroom and two closets to create a stunning, nearly 500-square-foot space, using Pickell's own high-end signature series cabinetry. Glass-enclosed cabinets showcase purses, hats and artwork along with glass shelving designed to show off those Manolo Blahniks and Jimmy Choos. Some extra perks: a safe with watch winders inside, hidden dog kennel, wine bar and refrigerator. Enjoy a glass of Champagne while preparing for the evening's gala, or pour yourself a nightcap and unwind. With a closet this gorgeous, you'll want to stay awhile. The best part? The Chanel Hula Hoop Bag, of course! [pickellbuilders.com](http://pickellbuilders.com)
