Job Description

TRIM CARPENTER

Job Title: Trim Carpenter
Division: Carpentry
Reports To: Kurt Savageau, Carpentry Manager
FLSA Status: Nonexempt
Prepared By: Tina Pickell
Prepared Date: July 15, 2015
Approved By: Lisa Pickell, Chief Operating Officer
Approved Date: July 15, 2015

SUMMARY OF POSITION:

A Trim carpenter works with the trim carpentry crew to install millwork, molding and trim of windows, doors, baseboards, crown molding, mantels and other ornamental pieces. A trim carpenter installs cabinetry and some fixtures as required. The carpenter will generally have an inventory of his own tools. The work involved is physically demanding, which includes bending, kneeling, lifting, carrying, climbing and standing for long periods.

ESSENTIAL DUTIES AND RESPONSIBILITIES:

- Work with blueprints, design details or instructions from supervisors.
- Work with materials such as wood, plastic, fiberglass, or drywall.
- Utilize chisels, planes, saws, drills, and sanders to install millwork, doors and windows.
- Join materials with nails, screws, staples, or adhesives.
- Use levels, rules, plumb bobs, framing squares, and surveying equipment to ensure everything is level and secure.
- Build stairs, mantles, and cabinetry.
- Install cabinets and molding.
- Hang doors.
- Drill and set door hardware.
- Erect scaffolding.
- Replace panes of glass, ceiling tiles, and doors.
- Repair or build furniture.
- Install partitions, doors, and windows
- Maintain clean and orderly work areas.
- Cut, shape, and assemble wood, composition, and/or plastic sections with shop tools and equipment such as planers, jointers, shaper, routers, sanders, and various power saws.

- Assemble prepared components for various structures, including cabinets, bookcases, desks, and paneled doors.
- Prepare structures for finish applications by planing, shaping and sanding; using hand and power tools.
- Read and interpret plans, sketches, and shop drawings for milling and fabrication.
- Maintain and clean equipment and work area.
- Perform related duties as assigned or needed.

QUALIFICATIONS

A carpenter must have knowledge of practices, procedures, techniques, tools and equipment, materials, specifications, quality control, and safety. To perform this job successfully, an individual must be able to perform each essential duty satisfactorily. The requirements listed below are representative of the knowledge, skill and/or ability required.

- Proficiency at carpentry skills.
- Able to interact with coworkers on project site.
- Able to work unsupervised.
- Possess an eye for fine detail. They must be very precise and exact with measurements and cutting tools.
- Has high degree of dexterity, physical strength, stamina and the ability to work long hours in all sorts of climates, temperature and conditions
- Possession of own carpentry tools.
- Must be reliable and able to work flexible schedule up to 8 hours per day and occasional overtime hours up to 10 hours per day.
