Prepared By: Lisa Pickell/Kevin Batz
Prepared Date: February 1, 2019
Approved By: Lisa Pickell, President
Approved Date: February 1, 2019

SUMMARY OF POSITION:

A Construction Superintendent is knowledgeable in a variety of skills for supervising construction work on a range of residential projects from small remodeling to large new construction homes while working mostly unsupervised and in a timely fashion. The trade is generally learned through years of hands-on work, often in carpentry or mechanical repair environments. The manager has an eye for detail, able to solve problems, schedule subcontractors' work and assure quality control of the project and manage client expectations. A Construction Superintendent must be able to balance running 3-6 projects simultaneously in different locations throughout the Chicagoland area.

ESSENTIAL DUTIES AND RESPONSIBILITIES:

- Direct and supervise work of subcontractors on project site.
- Prioritize tasks according to urgency and schedule subcontractors
- Read and interpret plans, sketches, and shop drawings.
- Determine parts and supplies necessary to complete repair/installation.
- Identify faulty workmanship or safety concerns in the residential setting. Initiate corrective action.
- Communicate to client the type work that was performed, associated costs and any follow up that may be required.
- Communicate schedule to subcontractors and to clients working within the set contract timing for each project.
- Maintain clean and orderly work areas.
- Keep accurate records of labor performed and materials used of each job.
- Obtain and submit receipts for all supply/material purchases.
- Return any unused items promptly for refund/credit.

- Perform related duties as assigned or needed.
- If needed perform tasks for residences such as rough and finish carpentry, cabinetry adjustments, drywall patching, install/adjust windows and doors, minor plumbing, minor electrical work.

QUALIFICATIONS

A Construction Superintendent must be able to work independently, take pride in their work, have the drive to serve their customers well and in a timely fashion. To perform this job successfully, an individual must be able to perform each essential duty satisfactorily. The requirements listed below are representative of the knowledge, skill and/or ability required.

- Able to handle customer complaints.
- Able to interact with clients and coworkers on project site.
- Able to resolve problems quickly and efficiently.
- Work in a team environment with the Project Manager (office support)
- Able to be discrete and flexible.
- Detailed oriented.
- Proficiency with email and basic computer operation.
- Adheres to security and protection of homes and possessions within them.
- Physically capable of moving and lifting equipment
- Plumbing, carpentry, and electrical skills
- Clean driving record.
- Possession of own tools
- Willingness to keep informed of new materials and methods in this trade.

EDUCATION and/or EXPERIENCE

Requires a high school diploma/GED and completion of a craft apprenticeship, or an equivalent number of years of education and maintenance experience. 5-10 years of experience working in residential construction in a supervisory role.

LANGUAGE SKILLS

Able to understand verbal and written instructions. Must Speak English. Spanish and/or Polish helpful.

MATHEMATICAL SKILLS

They must possess excellent basic math skills, including fractions.

REASONING ABILITY

Adept at establishing relationships with all parties involved in the construction process that facilitate harmonious working relationships during project, and permit prompt resolution of problems and conflicts as they occur.

Able to envision all steps in assigned tasks.

Able to organize assigned tasks for completion alone or with help.

Able to complete paperwork or data entry required for personal time sheets or billing in a timely manner.

CERTIFICATES, LICENSES, REGISTRATIONS
